Events - ECO CAMP (Tavira) & BUILDING NATURE (Torres Vedras)

**AIR - INNOVATION** - Local actions for Global Change

IADE - UNIVERSIDADE EUROPEIA - Design for Society & IADE UNIDCOM : idEAS (R)EVOLUTION

# Where are we?

Live With Earth Association is located 5km south from Torres Vedras, in the foot of Serra do Socorro, in the traditional village of Cadriceira. The accesses are excellent, with the A8 highroad at 5min by car, and also at 7min from Torres Vedras town, where there is long distance bus and also train stations. This place is located at 45min from the center of Lisbon, Sintra or Cascais.

# How we arrived here?

The dream started in 2012 with the thesis-project “Eco-Village Community”, which represents our vision, now turned into a social mission. Live With Earth Association was funded in 2017, during the organization of IFAC 2017 - International Festival of Art and Construction ( [www.ifac.pt](http://www.ifac.pt) ), starting our partnership with the Municipality of Torres Vedras, Parish Council of Turcifal, and other local, national and international partners. This map is about our first social intervention in Cadriceira Village and Serra do Socorro, mapping the areas of the festival. You can check the oficial video of IFAC 2017 in our Youtube channel.

# What is the project for our place?

Live With Earth Headquarter is an old primary school, given by the local municipality. We want to transform this land and building, into an example of research in Circular Economy and Permaculture living, doing more with less, and testing technologies and systems for self-sufficiency.

## SEDE DA ASSOCIAÇÃO LIVE WITH EARTH 2018-2020 - Planta Geral

### LEGENDA:

#### INTERIOR:

- 1 - Viveiro / Oficina / Atelier
- 2 - Cozinha e Copa
- 3 - Sala de Formações / Dormitório / Escritório
- 4 - Traseiras, passagem, armazém
- 5 - Armazem, primeiros socorros, materiais
